Date: Sunday, May 08, 2016 8:48:56 AM

Gary and all – I realized last night that Integral has staff at the Site this weekend for the sediment and tissue sampling efforts and that is who was seen on the cameras. They are also out there today. I apologize for the confusion.

We will have the drill crew on-site tomorrow (Monday, 5/9) to start working on the access platform for the final well.

Thanks,
David

Gary – We have not heard a report back from the sheriff's office on our earlier trespasser, but we had another trespasser around 5:30 CDT today that we sent a dispatch to investigate. The security company is following up with the sheriff's office to see if they have anything to report on both cases.

I can also provide additional photos and/or video if needed, but it will likely be Monday morning.

Thanks,
David

Subject: FW: SAN JAC WASTE PITS PERSON SEEN
Importance: High

Gary – Please see the attached video of a trespasser that was seen on the cap yesterday (for about 4 minutes) and also this morning. He has been driving a white sedan both days, and the security folks

9768186

also informed me someone is fishing just outside of the buoy line from a boat. I asked the security company to dispatch a Harris County Sheriff to the Site this morning since the person on foot's vehicle still appears to be there to see if they can figure out who it is and how they are gaining access into the right of way.

I will let you know if I find anything else out.

Thank you,
David

Good Morning Keith,

Per your conversation with Jesus, I've attached footage of the person seen on the cameras. Let us know if you need any further assistance.

Sincerely,

Johnnie Singletary
